

Secure PHI Transfer Technology

Payer audits are a difficult, complicated, and time consuming process to complete. RRS alleviates this burden, making sure the audit is reviewed, monitored, and submitted correctly and promptly.

RRS PAYER AUDIT SOLUTION

PAYER AUDIT PROTECTION

RRS' audit accuracy and compliance checkpoints provides assurance to your Medical Facility and your staff members.

Payer audits are reviewed with top precision, tracked from start to finish, and submitted promptly. Eliminate late responses that can leave you with significant workloads and no reimbursement. With RRS, your deadlines are always met.

PAYER AUDIT SUPPORT

Payer audits often are high volume with short turnaround times that cause an increase in workload and stress. RRS' highly trained auditing specialists expertly pull patient records specific to the payers' criteria and regulations. RRS provides a single point of contact for negotiating rates, processing, and delivering error and duplicate free records within the payer's time frame. We keep your patient's records secure while you receive continual processing support, saving your staff valuable time.
